

TIGG Corporation Welcomes Karl Kuchling to Develop the Steel Tank & Pressure Vessel Business

HEBER SPRINGS, AR – October 6, 2009- TIGG Corporation announced that Karl Kuchling has joined the company in the position of Business Development Manager.

Mr. Kuchling has over 25 years of experience in sales, technical support, customer service and business development in various markets including the petrochemical, oil and gas, and power generation industries. He began his career in the 1980s with Baker Hughes-Vetco Services, a global oilfield service company with operations in over 90 countries. Within five years he advanced to become the International Sales Manager.

More recently, Mr. Kuchling worked for a major regional distributor of air compressors and ancillary equipment in Arkansas. His knowledge of air compressor systems is an asset that fits with TIGG's new business venture: To serve markets that utilize steel tanks and ASME pressure vessels, such as receivers for the air compressor market. TIGG Corporation is offering a line of standard designs as well as custom air receivers for new and retrofit requirements.

TIGG Corporation has been engineering and manufacturing steel tanks and pressure vessels as adsorption vessels and filters for over 30 years. Building on this experience they are now offering steel tanks and pressure vessels built to customer specifications for a wide range of applications.

Anthony Mazzoni, Vice President of Business Development at TIGG Corporation, has said, "We welcome Karl to TIGG and are excited that he brings experience and expertise which will help TIGG achieve its goal: To provide steel tanks and pressure vessels for new markets outside of our traditional application areas. We look forward to Karl developing new opportunities in support of TIGG's growth objectives."

TIGG Corporation headquartered in Oakdale, PA, near Pittsburgh, designs and fabricates systems that use activated carbon and other purification media to treat water, wastewater, air and process streams. They also manufacture steel tanks and pressure vessels. The company's manufacturing facility is located in Heber Springs, AR. TIGG Corporation is a Woman Owned Small Business.
